Customer Testimonial

Singh Wheels India Pvt. Ltd

ACCU360 is best business management and controlling tool. Most importantly its accessibility from anywhere that extremely helped our business in new growth

Radiant Manufacturing Pvt. Ltd.

We have changed more than 3 software from 2014 . After using ACCU360 Enterprise Edition we think our search ended here. Fully satisfied with their service and error handling systems.

MC Trading

Before, we didn't have any controls in place – everything was basically a guess estimate on time studies. But now, with the ability to put jobs together, we have the controls of seeing where our losses and wastes are occurring.

Indus Entraders

We can't even imagine having made another ERP choice – ACCU360 has really surpassed our expectations and helped us completely reshape our business.

IoT & ERP

BETTER DECISION MAKING DUE TO IMPROVED DATA QUALITY AND AVAILABILITY

It will redefine your manufacturing process and tracking quality in every routing. It our IoT libraries you can integrate your PLC based machine to ERP to track real time production quantity and cost.
